Thank you so much for all the hard work! I've been here for several years now and a bit part of why I enjoy being a part of this community is because of the postdocs! ~ *Anonymous, NIDCR*

Thank you to postdocs at NIDDK Phoenix and on the Fellows Wellness Committee who thoughtfully look out for those around you. We see and appreciate you! ~ *Anonymous, NIDDK*

E. B., has been a lovely addition to our lab. She has been very helpful and knowledgeable and her drive to move the work forward has been great especially in the dual difficulties of coming overseas and the current pandemic. Working with her on our murine work has been great! I am glad to work with her and I hope she continues doing so well! ~ *John Fenimore, NCI*

Working with H. is being a fun and formative experience, hope I can keep learning from him! ~ *Juan Enriquez Traba, NIMH*

They say it takes a village to raise a child... well I would say it takes a Branch to 'raise' a graduate student! Thank you so much to all the fellows of the NCI Laboratory of Receptor Biology and Gene Expression (LRBGE). Because of you I've had an amazing Ph.D. experience over the last six years that led to my successful defense this Spring. You set the bar high and have been incredible role models to me. I owe my success, strength, and continued passion for science in great part to you. I will miss you guys- thanks so much for everything and I wish you the best wherever your paths take you next. ~ *Simona Patange, NCI*

Thank you for being my mentor and friend. I appreciate all you do to school me, humor me, and setting a great example for me to aspire to become as a scientist. ~ *Xiaoyi Li, NINDS*
