¹ Register for all workshops (indicated in italics) on the OITE website. Registrants will receive access to presenter's slides.

² MCAT should be completed by April 2017 if the applicant wishes to have the scores before submitting the AMCAS application. Constructing a list of schools without an MCAT score is difficult.

³ The AMCAS should be submitted on or before June 15 to ensure timely processing. If an applicant does not have an MCAT score, the AMCAS should be submitted with a few schools listed and then updated with more schools when the score is received.
