07/11/19	<i>Choosing and Applying to Medical School (workshop)</i> ^{1*}	Baltimore
07/17/19	NIH Grad & Professional School Fair (<i>Interviewing Tips for Professional School Workshop</i>)	Natcher, Bethesda

¹ Although AMCAS submission doesn't require an MCAT score, we strongly recommend taking the MCAT by April 2019. The score will then be available when the AMCAS system opens. Deciding on which schools to apply to is difficult without an MCAT score.

² The AMCAS should be submitted on or before 15 June to insure timely processing. If an applicant does not have an MCAT score, the AMCAS should be submitted with a few schools listed and then updated with more schools when the score is received.
