

# PhD Student Summer Course in Clinical and Translational Research

**July 9-20, 2012  
(10 Sessions)**

9AM-4 PM Daily

**National Institutes of Health  
Clinical Center  
Bethesda, MD**

The Nation's premiere biomedical research institution invites you to learn the process of clinical and translational research from concept to implementation. Sessions include:

**Roles of PhD Scientists in Clinical and Translational Research**

**Protocol Development and Logistics of Implementation**

**Drug Development and FDA Regulation**

Participants must attend all ten sessions.

## Criteria:

Students must be enrolled in a graduate program leading to a PhD in the basic sciences and **have completed at least their first year of study.** Students must show an interest in career development and a commitment to research.

## To Participate:

Send Advisor's Letter of Nomination, Student CV, and a Brief Personal Statement via email to **Terra Moody**, Program Coordinator, by **April 30, 2012.**
